

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Site Engineer, Pharmacy 2 U Bardon

Location: Bardon

Position Type: Permanent, Full Time

Due to continuous growth, we are looking to recruit a motivated **Site Engineer** to support our customer Pharmacy 2 U.

You have the responsibility for carrying out both preventative and corrective maintenance of automated equipment. You will liaise with the Logistex Systems and Technical Support department to drive performance improvements.

Responsibilities:

- Dealing promptly with mechanical, electrical and system issues across the various suppliers
- Provide assistance to the customer's management team with the site automation
- Take ownership of maintenance issues and see through to conclusion
- Use of computerised maintenance management system
- Participate in site meetings as required
- Follow company Health and Safety procedures and responsibilities as outlined in the Health and Safety policy.

Logistex is an **Equal Opportunities Employer**, committed to fostering an inclusive, diverse workplace where all individuals are valued and treated with respect. We welcome applicants from all backgrounds, believing that diversity drives innovation.
