

The background image is a composite of two scenes. On the left, a warehouse interior is shown with several pallets of goods wrapped in clear plastic, stacked on a concrete floor. On the right, a large white semi-truck is parked on a road, with a blue sky and some greenery in the background. The entire image has a blue tint.

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Software Project Manager – Kettering/Hybrid

Are you an expert at juggling projects, coordinating teams, and delivering success?

We are looking for a **Software Project Manager** to oversee multiple software projects and ensure completion on time, within budget, and to top quality standards. You will work closely with our integration project managers and software engineers in driving projects!

If you are a leader, with resource management, and understand all things projects with a sprinkle of software, this could be the perfect role for you!

What is it in it for you?

- Company vehicle/ allowance
- Flexibility: Based in Kettering, Northants, this role offers a hybrid working option, so you can work from home and head to project sites as needed
- Career development opportunities
- Become a member of an Employee-owned trust

Upon completion of Probationary:

- Cycle to work scheme
- Option to buy additional leave
- Option to join Private medical insurance

What will you be doing?

- Leading the software workstreams for integration projects, coordinating with our engineers and integration project managers every step of the way.
- Connect with internal and external customers and suppliers, establishing productive business relationships that lead to project success.
- Stay on top of budgets, deliverables, and timelines, ensuring any scope changes are captured and documented.
- Prepare, maintain, and monitor project plans, keeping the team updated on project progress through informal weekly and formal monthly reports.
- Promote a safe and compliant work environment, ensuring all health and safety standards are met across projects.

What are we looking for?

- A project management expert with experience in software development and the tools to support it.
- Prince2 or APM certified (that's a bonus!)
- Familiar with Warehouse Management Systems (WMS) and Warehouse Control Systems (WCS)—highly desirable.

Do not delay apply today. Send your CV and covering note to careers@logistex.com

Logistex is an **Equal Opportunities Employer**, committed to fostering an inclusive, diverse workplace where all individuals are valued and treated with respect. We welcome applicants from all backgrounds, believing that diversity drives innovation.
